

Controller

Be part of a vision for a greener future

- Be a part of the financial development of our company
- Ensure accurate accounting and visionary reporting

Become a part of Gram & Juhl A/S

We are searching for a controller to be responsible for our accounting and reporting. Key responsibilities include financial analysis, development of KPI's, optimizing and automating workflows, reporting internally and to authorities, budgets, bookkeeping, payroll, and payments. You will be responsible for ensuring that our accounting is constantly up to date in collaboration with other departments and participate in the financial management of the company. You have a methodical and meticulous approach and can be relied upon to ensure that we uphold all accounting requirements in a timely manner.

You are important to us

We are looking for an ambitious and proactive person with personal drive. As a person you are also forthcoming, have good communication skills and demands high standards from yourself and others thereby ensuring high quality work. You are structured, good at maintaining an overview of complex solutions and planning your own work schedule. You use words like enthusiastic, resourceful, self-motivated, and persistent to describe yourself.

We offer more than just a job

You will become a part of an international company, striving every day to improve the usage of green energy resources for the benefit of the world. As an employee you are given the freedom to act and the inspiration to take responsibility. We offer you the possibility to be active in an international equal opportunity company with focus on development and learning. We offer salary according to qualifications and among other things: flexible hours, health insurance, access to free fruits and massage. The primary workplace is at our domicile near Highway E45, Exit 68.

Required skills and qualifications

You hold an education in finance, accounting or similar.

You have experience in and knowledge of several of the disciplines below:

- ERP system, preferably SAP Business One
- Bookkeeping
- Salary, both national and international
- Financial overview, procedures, and reporting
- Public systems including vat, tax, duties, export regulations etc.
- Business level written and verbal communications skills in Danish and English is required.
- Valid work permit for Denmark required
